Featuring your parking spot somewhere here

An invitation from Claude

They will be doing the same style type of trophies as the past 2 years and having the same awards as the past 2 years. I think this car show will be a great event as the last have been. It will be located at:

The Dove Air Force Base Museum in Dover, Delaware June 5th 2010 at 1PM to 4 PM.
We will be requesting that the cars show up at 11AM and that you show up as a car club as this year we are parking with the Planes!!!

Currently one of the Air Force units will be having a family day for 11AM to 1PM and then coming over to our event. This year we are looking at having over 2000 people attend. And again everything is free! We are still up in the air as to food for everyone but don't worry we know that you guys are coming in earlier for us and we are in the process of making sure there is some type of hot lunch for you!

So as like last year I need you to start providing us with the total amount of cars your club will be bring, as parking is going to be fun lol. And we want to make sure that we have all clubs parking together as we always do. And again knowing that we are parking around planes I want to make sure that I have the best number of cars you are bring so I can park you together.

Just like last year this is a family fun event! So bring the kids! And we also will be having a play ground available for us! Live band etc. You all know the drill!

Anyway please get back to me on the number of cars coming from your club as we have only 200 well 250 car show spots this year!
Talk to you soon.

Thank You,

Claude Lacombe
